

Practice Facilithon

FM Challenge

Challenge review time- 2 Minutes

Presentation time- 3 Minutes

Q&A time-5 Minutes

Scoring items- Decisive Action, Best Possible Outcome

It's winter in WI and 18 degrees outside. Your employer has 210 employees inside. You're in a meeting on the fourth floor of your building with your SkillsUSA judges when the Fire Alarm has been triggered. A person called to say there's a lot of water flooding into the basement near the mechanical room.

1. What action is first and foremost on your list?
2. What resources (people, place, things, or services) will be used?
3. How can we prevent or limit its occurrence or impact in the future?
